

BIOGRAPHY

William Spickler, M.D., Ph.D.
Retired, Formerly
Vice President, Pharmaceutical Development
Angiogenix, Inc.
Burlingame, California

Dr. William Spickler has over 20 years experience in medical practice and clinical research in the pharmaceutical industry. His primary therapeutic areas of interest have been cardiovascular medicine and rheumatology, and his primary experience has been in clinical development of pharmaceutical products ranging from phase I through phase IV clinical trials.

Prior to joining Angiogenix Dr. Spickler was Senior Medical Director at XOMA (US) LLC, Chief Operating Officer at Ischemia Research and Education Foundation, Vice President for Medical Affairs at Vascular Therapeutics, Inc., and Vice President for Clinical Research Operations at Syntex, Inc. He started his career in the pharmaceutical industry at Astra Pharmaceutical Products, Inc., in Westborough, Massachusetts

Following four years of physiologic and medical device research at the Kettering Medical Center in Dayton Ohio, Dr. Spickler completed his clinical training and obtained Board Certification in Internal Medicine. After eight years in medical practice he resumed clinical research in the pharmaceutical industry.

Dr. Spickler has an M.D. degree from the Medical College of Ohio, and a Ph.D. in Cardiovascular Physiology from Northwestern University Medical School. He also has a M.S. degree in Biomedical Engineering and a B.S. degree in Electrical Engineering from Northwestern University. Dr. Spickler is certified by the American Board of Internal Medicine and the National Board of Medical Examiners and has held medical licenses in five states. He is the co-inventor of two patents related to the nuclear powered intracardiac pacemaker developed at the Cox Heart Institute of the Kettering Medical Center. Dr. Spickler is the author or co-author of more than 30 publications and the author of "The Doctor Is In", a series on clinical trial design that appeared on the industry web space at Biospace.com.
